Cookie Notice

This notice describes how we use tracking technologies (such as cookies) on our digital platforms, what visitor information is automatically collected, and how you can accept or refuse the tracking technologies we use.

Why do you use tracking technologies?

We use tracking technologies on our digital platforms:

- to make them work, or work more efficiently
- to provide our digital platforms with enhanced functionality
- to provide reporting information to understand how visitors use our digital platforms

What are cookies?

Cookies are an example of a tracking technology. They are small text files that are placed on your computer when you visit a digital platform, which are then used as a means of identifying your computer for the purposes described below.

Cookies set by the owner of a digital platform are called “first party cookies”. Cookies set by other people are called “third party cookies”. Third party cookies enable the third party to provide features or functionality on or through the digital platform (like analytics, advertising and videos). The parties that set these third party cookies can recognize your computer both when it visits our digital platform, and when it visits certain other digital platforms.

What information do your tracking technologies collect? Can I control whether you use them?

We use tracking technologies to collect certain information about the computers that access (and therefore the visitors that use) our digital platforms. The table below shows the types of information, and how you can control whether the information is collected:

Category of technology	Purpose of technology	Example of use	Type of information collected	How you can control the use
Strictly necessary	provide the digital platform and its features	display content on your device properly	the computer's IP address, browser type, screen resolution	Because this is essential to operate the digital platform and its services, you can not opt out.
Functionality	provide the digital platform and its features in a convenient way	remember who you are, your preferences and your settings, so you don't need to enter them each time you change page, such as: <ul style="list-style-type: none"> • if you sign in to a secure area • if you select a preferred language • if you select regional settings 	the computer's IP address, together with preference information you enter, such as language preferences or region	To learn how to opt out of functionality cookies using your browser settings click here . Note that opting out may impact the functionality you receive when using the digital platform. To learn how to manage privacy and storage settings for Flash cookies click here .

Category of technology	Purpose of technology	Example of use	Type of information collected	How you can control the use
Performance measurement	allow us to improve the way the site operates	<p>understand how people use our platform, or how well it performs.</p> <p>However, we receive only anonymous information from these technologies: the information they collect is reduced so that it identifies only the area where you are located, then aggregated, before we receive it.</p>	<p>How many people visit, from where they come to our digital platform, and how they use our digital platform (including the most popular pages, how people move around the site, how long they spend on the site, error messages, and so on).</p>	<p>You can opt out of performance cookies using your browser settings; note that how you do this varies from browser to browser, so please visit your browser's help menu.</p> <p>Alternatively, click here.</p>
Targeting or advertising	serve targeted advertising to the user engages third parties to track and analyse use and volume statistical information from individuals who visit the digital platform		<p>IP addresses and other information from web beacons (these can be on the digital platform, in e-mails, or on third party digital platforms).</p>	<p>To learn more about these and other advertising networks and their opt-out instructions, click here and here.</p> <p>To learn how to manage privacy and storage settings for Flash cookies, click here.</p>
